JOURNAL

OF THE

American Society of Naval Engineers.

PUBLISHED QUARTERLY

UNDER THE SUPERVISION OF THE COUNCIL.

VOLUME LIII.

1941

COUNCIL OF THE SOCIETY:

Captain CLAUD A. JONES, U.S.N.
Captain E. L. COCHRANE, U.S.N.
Commander N. L. RAWLINGS, U.S.N.
Commander T. J. BAY, U.S.N.
Commander ELLIS REED-HILL, U.S.C.G.
Mr. W. E. BLEWETT, JR.
Mr. G. W. CODRINGTON
Mr. W. S. NEWELL
Commander JAMES E. HAMILTON, U.S.N.

WASHINGTON, D. C.
R. BERESFORD, PRINTER, 605 F STREET, N. W
1941.

INDEX TO VOLUME LIII, 1941

PAGE

Air Injection, Back to (Note) 248
Alden, Carroll R., Fuel Injection Pumps for Diesel Powered Naval Motor Boats 745
Alexander, Robert T., Illumination of Coast Guard Vessels 1
Light Sources for Coast Guard Use 421
Alloys, Elasticity of, Modulus of (Note) 251
Alloy, High Temperature (Note) 258
Alloys, Nickel Copper; The Behavior of in Sea Water, by F. L. LaQue 29
Association Notes 268, 477, 702, 905
Automatic Temperature Control, Principles of (Note) 608
Becker, A. L., Book Review, The Radio Amateur's Handbook 266
Blank Flanges, Possible Danger With (Note) 898
Bleick, W. E.; A Simplification in the Meyer-Hovgaard System of Pipe Stress Forms 775
Boiler Feed Pumps, High Pressure (Note) 466
Boiler Test Code, The N. B. T. L., by Fred J. Wiegand 724
Book Reviews:
The High-Speed Compression-Ignition Engine, by C. B. Dicksee (M. M. Dana) 699
Lange's Handbook of Chemistry 904
Sea Power in the Machine Age, by Bernard Brodie 701
The Radio Amateurs' Handbook, by A. L. Becker 266
Boring, Expensive, Replaced by Grouted Liners (Note) 476
Bureau of Ships, Organization and Functions of, by D. H. Clark 502
Calculations, Preliminary, in Merchant Ship Design (Note) 619
Carbon Steels for High-Temperature Service (Note) 657
Cargo-Handling Gear, Ships' (Note) 441
Castings, Finished-Machined, Some Development in the Repair of by Welding, by Carlton G. Lutts and Paul Ffield 491
Centrifugal Governors (Note) 831
Centrifugal Pumps, Experimental Highlights of Visual Experimentation with, by Howard L. Cooper 513
Clark, D. H.; Organization and Functions of the Bureau of Ships 502
Coast Guard Vessels, Illumination of, by Robert T. Alexander 1
Coast Guard, Light Sources for, by Robert T. Alexander 421
Collodial Fuel (Note) 822

PAGE

Concrete Ships (Note) ... 893
Cone, H. I., Obituary ... 269
Control, Steering Gear, Characteristics, by A. M. Nickerson, Jr. ... 411
Controllable Pitch Propellers, Discussion of J. H. Strandell's Article (Vol. 52, Pg. 408), by H. F. Nordstrom ... 169
Controllable Pitch Propellers, Discussion of J. H. Strandell's Article (Vol. 52, Pg. 408), by J. H. Strandell ... 173
Cooper, Howard L., Experimental Highlights of Visual Experimentation with Centrifugal Pumps ... 513
Copper Nickel Alloys, The Behavior of in Sea Water, by F. L. LaQue 29
Corrosion, The Influence of on Propeller Shaft Maintenance, by H. L. Setz ... 735
Corrosion of Steel and Various Alloys by High Temperature Steam, by H. L. Solberg G. A. Hawkins and A. A. Potter ... 705
Cylinder Bores, Induction-Hardened (Note) ... 644
Danger, Possible, with Blank Flanges (Note) ... 898
Diesel, What Diet for Your (Note) ... 258
Diesel Engine Breakdowns, Causes of (Note) ... 474
Diesel Powered Naval Motor Boats, Fuel Injection Pumps for, by Carroll R. Alden ... 745
Discussion of Commander Gold's Paper, "Stopping and Backing Trials of a Destroyer" (76):
by Lybrand P. Smith ... 120
by John M. Labberton ... 548
by D. C. MacMillan ... 559
by R. G. Lorraine, Charles Concordia and Donald L. Herr ... 576
by P. D. Gold, Jr. ... 585, 586, 587, 589
Discussion of Mr. Michel's Paper, "Efficiency of Double Reduction Gears as Influenced by Lubricating Oil Temperatures" (769), by W. C. Latrobe and J. C. Radford ... 766
Double Reduction Gears, Efficiency of as Influenced by Lubricating Oil Temperature, by R. Michel (Discussion page 766) ... 756
Duma, Joseph A.; Evaluating Welding Electrodes ... 65
Electric Arc-Gun, Metal Spraying with (Note) ... 688
Electrical Contacts, Materials for (Note) ... 689
Electrical Insulation, by Jesse B. Lunsford ... 128
Electrodes, Welding, Evaluating, by Joseph A. Duma ... 65
Electron Bombardment, Melting by (Note) ... 687
Engineering Features of Maritime Commission Program (Note) ... 449
Engineering, Production (Note) ... 632
Errata ... 489
Expansion Stresses, Thermal, in Piping, by Mason S. Noyes ... 275
Experimentation, Visual, With Centrifugal Pumps, Experimental Highlights of, by Howard L. Cooper ... 513

PAGE

Fabrication and Hull Erection of 165-Foot All Welded Submarine Chasers, Unusual Features of, by Robert Hughes 769

Ffield, Paul, and Carlton G. Lutts; Some Developments in the Repair by Welding of Finished-Machined Castings 491

Flow Indicator for Liquids (Note) 475

Fuel, Collodial (Note) 822

Fuel Injection Pumps for Diesel Powered Naval Motor Boats, by Carroll R. Alden 745

Generator, Heavy Current, The Unipolar (Note) 244

Gold, Pleasant D., Jr.; Stopping and Backing Trials of a Destroyer 76
(Discussion on pages 120, 548, 559, 576, 585, 586, 587, 589)
Final Discussion of "Stopping and Backing Trials of a Destroyer," Vol. 53, pg. 76 585

Governors, Centrifugal (Note) 831

Grouted Liners, Replacement of Expensive Boring by (Note) 476

Harrison, R. E. W.; Today's Machine Tools, Machinery and Mechanized War 533

Hawkins, G. A., H. L. Solberg and A. A. Potter; The Corrosion of Steam and Various Alloys by High Temperature Steam 705

Herr, Donald L., R. G. Lorraine and Charles Concordia; Discussion of "Stopping and Backing Trials of a Destroyer," by P. D. Gold, Jr., Vol. 53, pg. 76 576

High Pressure Steam Generation, Physics of (Note) 839

High-Temperature Alloy (Note) 258

High-Temperature Service, Carbon Steels for (Note) 657

Hoover, Hon. Herbert; Research 591

Hughes, Robert; Unusual Features of Fabrication and Hull Erection of 165-Foot All Welded Submarine Chasers 769

Hull Erection and Fabrication of 165-Foot All Welded Submarine Chasers, Unusual Features of, by Robert Hughes 769

Illumination of Coast Guard Vessels, by Robert T. Alexander 1

Indicator, Flow, for Liquids (Note) 475

Induction-Hardened Cylinder Bores (Note) 644

Insulation, Electrical, by Jesse B. Lunsford 128

Labberton, John M.; Discussion of "Stopping and Backing Trials of a Destroyer," by P. D. Gold, Vol. 53, pg. 76 548

Lange's Handbook of Chemistry (Book Review) 904

LaQue, F. L.; The Behavior of Nickel Copper Alloys in Sea Water 29

Latrobe, W. C.; Discussion of Mr. Michel's Paper, "Efficiency of Double Reduction Gears as Influenced by Lubricating Oil Temperatures" (756) 766

Light Sources for Coast Guard Use, by Robert T. Alexander 421

Lignin, Waste, Utilization of (Note) 256

PAGE

Lorraine, R. G., Charles Concordia and Donald L. Herr; Discussion of "Stopping and Backing Trials of a Destroyer," by P. D. Gold, Jr., Vol. 53, pg. 76 576
Lubricating Oil Temperature, Influence of on Efficiency of Double Reduction Gears, by R. Michel 756
(Discussion page 766)
Luminescent Signs (Note) 901
Lunsford, Jesse B.; Electrical Insulation 128
Lutts, Carlton G., and Paul Ffield; Some Developments in the Repair by Welding of Finished-Machined Castings 491
MacMillan, D. C.; Discussion of "Stopping and Backing Trials of a Destroyer," by P. D. Gold, Jr., Vol. 53, pg. 76 559
Machine Tools, Machinery and Mechanized War, Today's, by R. E. W. Harrison 533
Machinery for the Post-War German Mercantile Fleet (Note) 899
Marine Diesel Propulsion Drives, Comparison of (Note) 884
Materials for Electrical Contacts (Note) 689
Maritime Commission Program, Engineering Features of (Note) 449
Mechanical Properties of Solids (Note) 796
Mercantile Fleet, German Post-War, Machinery for (Note) 899
Merchant Ship Design, Preliminary Calculations in (Note) 619
Metacentric Diagrams, Note on (Note) 811
Metal Spraying with an Electric-Arc Gun (Note) 688
Meyer-Hovgaard System of Pipe Stress Forms, A Simplification in the, by W. E. Bleick 775
Michel, R.; Efficiency of Double Reduction Gears as Influenced by Lubricating Oil Temperatures 756
(Discussion page 766)
Modulus of Elasticity of Alloys (Note) 251
Motors, Synchronous (Note) 601
Nickerson, A. M., Jr.; Steering Gear Control Characteristics 411
Nordstron, N. F.; Discussion of J. H. Strandell's Paper on Controllable Pitch Propellers, Vol. 52, pg. 408 169
Noyes, Mason S.; Thermal Expansion Stresses in Piping 275
Obituary, H. I. Cone 269
Organization and Functions of the Bureau of Ships, by D. H. Clark 502
Pipe Stress Forms, Simplification in the Meyer-Hovgaard System of, by W. E. Bleick 775
Piping, Thermal Expansion Stresses in, by Mason S. Noyes 275
Potter, A. A., H. L. Solberg and G. A. Hawkins: The Corrosion of Steel and Various Alloys by High Temperature Steam 705
Powering of Ships (Note) 192
SS *President Jackson* (Note) 187
Pressure Temperature Chart for Refrigerants (Note) 255

PAGE

Production Engineering (Note) 632
Propeller Shaft Maintenance, The Influence of Corrosion on, by H. L. Setz 735
Propulsion Drives, Marine Diesel, Comparison of (Note) 884
Pumps, Centrifugal, Experimental Highlights of Visual Experimentation With, by Howard L. Cooper 513
Pumps, Fuel Injection, for Diesel Powered Naval Motor Boats, by Carroll R. Alden 745
Pumps, High-Pressure Boiler Feed (Note) 466
Radford, J. C.; Discussion of Mr. Michel's Paper, "Efficiency of Double Reduction Gears as Influenced by Lubricating Oil Temperatures" (756) 766
Radio Equipment of Naval Aircraft, Weight Factor in the Design of, Part II, by Wm. Bruce Wells 375
Reduction Gears, Double, Efficiency of as Influenced by Lubricating Oil Temperature, by R. Michel 756
(Discussion page 766)
Refrigerants, Pressure Temperature Chart for (Note) 255
Repair by Welding of Finished-Machined Castings, Some Developments in, by Carlton G. Lutts and Paul Ffield 491
Research; Address by Hon. Herbert Hoover 591
Rubber-Like Materials (Note) 460
Salt Water, Purification of (Note) 896
Salvage Your Own Ship (Note) 684
"Sea Power in the Machine Age," by Bernard Brodie (Book Review) 701
Sea Witch Completes Maiden Voyage (Note) 458
Setz, N. L.; The Influence of Corrosion on Propeller Shaft Maintenance 735
Shift Schedule, Convenient (Note) ..... Facing 898
Ships, Concrete (Note) 893
Smith, Lybrand P.; Discussion of Commander Gold's Paper, "Stopping and Backing Trials of a Destroyer" (76) 120
Solberg, H. L., G. A. Hawkins and A. A. Potter; The Corrosion of Steel and Various Alloys by High Temperature Steam 705
Solids, Mechanical Properties of (Note) 796
Steam Generation at High Pressure, Physics of (Note) 839
Steam Plant Development, Trends in (Note) 614
Steel and Various Alloys, Corrosion of by High Temperature Steam, by H. L. Solberg, G. A. Hawkins and A. A. Potter 705
Steering Gear Control Characteristics, by A. M. Nickerson, Jr. 411
Stopping and Backing Trials of a Destroyer, by Pleasant D. Gold, Jr. ... 76
(Discussion on pages 120, 548, 559, 576, 585, 586, 587, 589)
Strandell, J. H.; Discussion of J. H. Strandell's Paper on Controllable Pitch Propellers, (Vol. 52, pg. 408) 73

PAGE

Strategic Metals, Review of (Note) 227
Synchronous Motors (Note) 601
Temperature Control, Automatic, Principles of (Note) 608
Test Code, Boiler, The N. B. T. L., by Fred J. Wiegand 724
Thermal Expansion Stresses in Piping, by Mason S. Noyes 275
Trials, Stopping and Backing, of a Destroyer, by Pleasant D. Gold, Jr. 76
(Discussion on pages 120, 548, 559, 576, 585, 586, 587, 589)
Weight Factor in the Design of Radio Equipment for Naval Aircraft, Part II, by Wm. Bruce Wells 375
Weight Saving by Welding (Note) 689
Welding, Arc, Without Residual Shrinkage Stresses (Note) 675
Welding, Repair by of Finished-Machined Castings, Some Developments in, by Carlton G. Lutts and Paul Ffield 491
Welding, Weight Saving by (Note) 689
Welding Costs, Factors Affecting (Note) 471
Welding Electrodes, Evaluating, by Joseph A. Duma 65
Welding in Shipbuilding (Note) 211
Wells, Wm. Bruce; The Weight Factor in the Design of Radio Equipment for Naval Aircraft, Part II 375
Wiegand, Fred J.; The N. B. T. L. Boiler Test Code 724
Wind Power, Pioneering in (Note) 679
Wire Rope Troubles, How to Detect and Cure (Note) 651
